ABOUT ME

I have a background in Geospatial Data Extraction and Implementation . I have recently completed my B.E. in Geomatics Engineering. My interest is towards gaining technical skills and have theoretical knowledge required. I am also enthusiastic about Remote Sensing and its practicalization in the real world issues. Proficient in modern geomatics technologies in surveying, GIS, and geospatial data analysis.

WORK EXPERIENCE

● **Mappers Nepal Pvt. Ltd.** Kathmandu, Nepal

Freelance GIS Engineer

05/2025 – Current

LAND USE PLANNING:

- Bhageshwar Rural Municipality, Dadeldhura,Nepal
- Khaptad Chhanna Rural Municipality, Bajhang,Nepal
- Badhimatika Municipality, Bajura,Nepal
- Kabilashi Municipality, Sarlahi, Nepal
- Krishnanagar Municipality, Kapilvastu, Nepal

● **Sakshan Engineering Solutions Pvt. Ltd.** Kathmandu, Nepal

Freelance GIS Engineer

05/2025 – 06/2026

PERIODIC DEVELOPMENT PLAN:

- Gaumukhi Rural Municipality, Pyuthan, Nepal

GIS Engineer

07/2026 – Current

- Geospatial database creation, management, and maintenance using GIS software
- Photogrammetric data processing and analysis
- Processing and organizing survey and GIS datasets
- Preparing thematic maps, layouts, and technical GIS outputs
- Supporting drone survey data processing and integration
- Assisting with hydropower survey data processing and mapping
- Performing land use planning and infrastructure-related GIS analysis
- Preparing project documentation and technical reports.

EDUCATION AND TRAINING

● **2020 – 2025** Pokhara, Nepal

● **Bachelor's in Geomatics Engineering** Tribhuvan University
IOE,WRC

● **Training on UAV Drone Surveying and Drone Data Processing**
Geomatics Engineering Students' Association of Nepal (GESAN)

● **Google Earth Engine Workshop** Geomatics Engineering
Students' Association of Nepal (GESAN)

LANGUAGE SKILLS

MOTHER TONGUE(S): Nepali

Other language(s):

English

Listening C1

Reading C1

Writing C1

Spoken production B2

Spoken interaction B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

SURVEYING TOOLS

GNSS (RTK, Static) | Total Station | Leveling Instruments

SOFTWARE

ArcGIS | Pix4D | Open Street Map

PROGRAMMING

Python (for geospatial analysis) | HTML CSS | C and C++

TECHNOLOGIES

UAV Mapping | Remote Sensing | Photogrammetry

SOFT SKILLS

Problem Solving | Ability to work in a team and autonomously | Clear Communication

PROJECTS

2024 – 2025

Landslide Susceptibility Mapping Using Frequency Ratio, Logistic Regression and Random Forest Models: A Case Study of the Butwal-Tansen Section, Siddhartha Highway

Applied Frequency Ratio (FR), Logistic Regression (LR), and Random Forest (RF) models for landslide susceptibility assessment using simple and stratified random sampling

Performed feature importance and multicollinearity analysis using Information Gain (IG), Pearson Correlation Coefficient (PCC), Variance Inflation Factor (VIF), and Tolerance

Developed and evaluated LSM (Landslide Susceptibility Maps) using AUC-ROC, accuracy, precision, recall, and F1-score

Identified LULC, NDVI, Rainfall, and Geology as the most influential causative factors

Contributed to hazard prediction tools that support disaster risk management, land-use planning, and policy-making.

VOLUNTEERING

Pokhara

Worked as a Coordinator in Geospatial Meet-2025

Pokhara

Worked as a Coordinator in a Blood Donation Program in Association with Lions Club of Pokhara SmartTown
